

ARRIVAL OF CLIPPER SWORDFISH

On Thursday last, just after our paper was issued, the clipper ship Swordfish arrived, having had a long passage of 19 days from San Francisco. She brought a small mail with but one week's later news. The Vankee was to sail on the 1st of November,

and may possibly be in before we go to press, but more likely will arrive, as usual, just after. Dates are from October 4 to 8. AFFAURS IN MISSOURL-The Rebels had retreated

from Lexington, fearing an engagement with Fre-mont. A disputch from Jefferson City, dated October

Little doubt is entertained here that Price is on his way South with the main body of his army. When hat heard from, Price's advance guard was at Clinton, in Henry county. It is supposed that Price will push on to the Arkansas line. Gen. Fremont will follow him closely and give him battle wherever he can. A force of between 2,000 and 4,000 was seen near Upton to day, whose object is presumed to be to get between our advance and this place, and fall upon some stray regiment or transportation train going west. Gen. Fremont's staff will probably leave for Sedalia to-morrow.

The following is a special report of the Missouri Republican. It seems to be the belief in military circles here that Price will avoid a battle with Fremont, if possible; but others entertain the opinion that he intends to surprise him upon some point least protected, and that we shall have a fight in a few days. Fremont designs to follow the Rebel army into Kansas, and force them to fight, wherever he can encounter them. Caib Jackson is reported to be en route for Texas. The farmers of Pettis county recently offered to

fornish Fremont, gratis, \$200,000 worth of grain for his army. Fremont will not be superseded unless the next news from Missouri is unsatisfactory and is of disastrous character.

The following official dispatch, just received from Washington, sets all doubt at rest : To Gen. J. R. Curtis, St. Louis: "Gen. Fremont is not ordered to Washington nor from the field, nor

is any Court Martial ordered concerning him. W. H. Seward, Sec. of State." A gentleman who arrived at St. Louis this evening, confirms the report of the evacuation of Lexington by the Confederate forces, and he brings us intelligence of the probability of the occupation of that

place by Gen. Sturgis' command. Mojor Baker, of the Home Guards, who was taken prisener at Lexington, says Price's regularly drilled and efficient force will amount to about 25,000 men. He has, in addition to this, about 1,500 irregular troops, whose principal occupation is foraging and

Gen. Sigel is bound to get at Gen. Price, and if he meets him he will give a good account of himself. The loyal citizens of Kansas have petitioned to the Government for military aid; they fear that if Price is not defeated in Missouri, Kansas will fall into the hands of the rebels.

The excess of expenses over the Post Office Department receipts for the fourth quarter of the year 1860, was near \$2,000,000, while the excess for the first quarter for the present year was \$803,000. The receipts for the latter quarter exceeding those of the former by more than \$500,000.

The announcement that the Spanish Government propose sending an expedition against Mexico, with land force of 5,000 men to march on the city of Mexico, is looked upon as mere brag. Should any such interference take place, our Government has determined to resent it, and promptly repel, wifh our army and navy, any force that may be directed by Spain against the neighboring republic of Mexico. Gen. McClellan has put an end to the visits of

politicians to our camps. The Richmond papers of Thursday state that Jeff. Davis arrived at Fairfax Court House on Wednesday, and made a speech to the soldiers, telling them that if they would make good use of their rifles, they

would soon be in Baltimore. The Richmond journals also state that the sick soldiers of the rebel army have been sent from Manassas to Richmond, and that this movement was made in expectation of a battle, although no official imformation has been received The frigate Susquehanna has arrived from Hatteras Inlet, and brings most interesting intelligence. The day after the capture of the propeller Fanny by the rebels, the steamers Ceras and Pulgam, having sions, returning the same evening, without having

one of the launches of the Sasquehannu in tow, went up the Chicoquicoco, and landed seven days' proviseen anything of the rebels. On Friday, word reached Hatterns Inlet, by the Stars and Stripes, that 1,500 rebels, consisting of Georgia, South Carolina, and Virginia regiments, had come over from the main land in six small steamers, and schooners, and flatboats, and attacked the S0th Indiana Regiment, who were obliged to retreat. The Susquehanna steamed up outside, white Col. Hawkins marched up with six companies and reached Hatteras light by nightfall, a distance of 13 miles. During the night, Cal. Hawkins was joined by the 30th Indiana Regiment, who had passed in the darkness, a large body of rebels who had landed for the purpose of cutting them off. Cyl. Brown reported a loss of fifty of his men, comprising his sick and wounded, and twenty pickets

who could not be called in. He succeeded in saving his tents, provisions, etc. On Saturday morning the Monticello steamed

around the Cape, and a few miles up met the rebels marching down a narrow neck of land to attack our

The rebel steamers were also landing troops to cooperate with them; they were within easy range, and the Monticella opened fire upon them with shell, 218 of which were fired from 3 guns in 3 hours and 30 minutes, doing great execution. The Confederates tried at first to shelter themselves, but soon broke in every direction, and took refuge upon their vessels. A shell passed through the wheel house of the Fanny. which was already employed against the U.S. It is thought their loss must have been between 200 or 300 killed and wounded during the engagement.

A member of the Indiana Regt., who had been taken prisoner, managed to escape, and took to the surf, and was picked up by a boat from the Monli-cello. He reports that the first shell killed Col. Barton of the Georgia Regt., and that the havee was The Spaulding arrived at the Inlet on the 7th inst.,

with Gan. Mansfield, and landed her men and stores. Too much praise cannot be accorded to Lieut. Brune for this brilliant achievement, which has caused great exultation at Old Point.

Col. Brown narrowly escaped with the 30th Indiana Regt. He was shelled from the Confederate vessels, and troops were landed above and below him, yet he managed to escape with a comparatively small loss. The particulars of his masterly movement have not

New York.-The balloon which was seen over Washington, a few days ago, proved to be La Mountain's, which rafely landed in Maryland. It appears that after rising to a certain distance, and finding the current light, he cut the rope and rose to the height of three miles, obtaining a complete view of the rebel encampments and movements, which important news he has communicated to the War Department.

Washington 7th .- The balloon repmain body of the rebels is at Fairfax Court House, whence a broad bed of camps, almost unbroken, are seen from our balloon, stretching northward towards Leesburg.

There are nearly 30,000 men on the Lower Potomac, and 1,200 or 1,500 back of Evansville. Near Manassas there are comparatively few troops.

House to Let! THE HOUSE AND PREMISES AT present occupied by R. Gilliland, just above the first bridge, near the residence of Dr. S. P. Ford. For particulars, apply to R. GILDILAND, or to JOS. O. CARTER.

Late Foreign Summary,

Parson Brownlow and his son, of Knexville, Tenn., e under arrest, by order of General Zollicoffer. It has been reported that he has turned rebel. But the tember 25th; itest letter from him says: " Let no man into whose ands this may full believe for a moment I will desert he old flag. They may rob and burn my possessions, and hang me. Let not their lying, traitorous tongues ob me of my good name. "WM. G. BROWNLOW." The trotting horse Bay Dick, belonging to a rebei in Richmond, was seized under the Confiscation act,

Ex-Covernor George N. Briggs, of Musachusetts, who was wounded in the face and neck by the accidental discharge of a shot gun, diel at Stockbridge. Disasten .- On Tuesday last the inner wall of Docabue's Building, on the corner of Bush and Montcomery streets, fell while the workmen were engaged, urying seven men under the ruins. They were all extricated alive, and, as we hear, are likely to recover. S. F. Paper.

SALE OF THE WHALE -The whale has been withdrawn from public exhibition for obvious reasons. We understand the carcase has been sold for the sum of three hundred dollars to parties who intend to try out the blubber .- S. F. Paper.

The New Belford Mercury learns from the most reliable authority that there is now in the city of Washington, or within an hour's call, over two hundred thousand well armed reliable troops. In regard to Gen. Garibaldi's coming to the United

States Major Brauenswein, one of his aids, who has recently entisted in the Federal army says that at the breaking out of the war he entertained some idea of offering his services to the United States Government. but the project is, owing to his illness, utterly impos sible at present. When his aid left Caprera, on the 18th August, Garibaldi was confined to his bed by a severe attack of rheumatism. The Major is authorized to offer our Government the services of upwards of 2,000 veteran Italian soldiers, with their officers. KENTUCKY PUTTING FORTH HER MILITARY STRENGTH. Kentucky, invaded along her entire southern frontier, is putting forth by her people (for the State au-

thorities are the led rather than the leaders) the most determined efforts to drive back the hordes that would lay waste her territory. There are now, probably, in field and camp, full 20,000 men, and at the rate of progress in the last two weeks, this number will be raised to 30,000 before the middle of next month, by which time nearly all the regiments now accepted will have entered the service. A FIGHTING CLERGYMAN.-The Rev. B. C. Ward, pastor of a congregational church in the village of enesee, Illinois, conceives it to be his duty to for-

sake the pulpit for the field. He received authority to raise a company of infantry, but proposes to enlist clergymen only. An appeal to his clerical brethren, published over his own signature, calls upon the fighting stock of the church militant" to prove to the world their willingness to "seal with their blood what they have talked in their pulpits." THE SABBATH PROCLAMATION,-The following order

has just been promulgated : HEADQUARTERS ARMY OF POTOMAC, ? Washington, Sept. 7, 1861. GENERAL ORDER, No. 7 .- The Major General comnanding desires and requests that in the future there may be a more perfect respect for the Subbath on the part of his command. We are fighting in a holy cause, and should endeavor to deserve the benign favor of the Creator.

Unless in case of an attack by the enemy, or some ther extreme military necessity, it is commanded to mmanding officers that all work shall be suspended on the Sabbath; that no unnecessary movement shall be made on that day; that the men as far as possible, shall be permitted to rest from their labors; that they shall attend divine service after the customary inspection; and that officers and men alike use their influence to insure the utmost decorum and quiet on that day. One day's rest is necessary for men and animals. More than this, the observance of the HOLY DAY of the God of Mercy and Battles is our sagred duty.

(Signed) G. B. McClellan, Major General Commanding.

S. WILLIAMS, Adjutant-General. AFFAIRS AT LEXINGTON.-Reports from Lexington, are still to the effect that the rebel generals are daily receiving accessions to their forces, and that when McCallough and Price join, they will have full 50-000 men and 30 pieces of artillery, to combat the Federal forces now collecting in the vicinity of Georgetown. The rebels are flushed with their late advantages, confident of a victory in the coming battle, and will fight to desperation, confident that the fate of the State depends upon the issue. Fremont, Hunter, McKinstry, and other Federal generals will have, say, 20,000 men in round numbers, all, excepting a few German regiments, composed of stalwart Westerners, and a superb artillery force, full twice as strong as that of the enemy. On this superiority of artillery the Unionists mainly rest their hopes of a victory. Next week will bring on the bat-ile, provided the rebels keep their present position, which they seem inclined to do. Lexington at present is their centre, and they are sending out strong detachments to ravage the neighboring counties. A body of 10,000 is reported to be marching on St loseph where they will be opposed, doubtless, by Lane from Kansas City, and Storgis from Fort Leavenworth, as well as 1,600 regulars from Utah and Fort Laramie, who cannot be more than one or two days distant from Leavenworth. After they join, the Federal forces will number 7,000 men. [The latest telegraphic news mention the reported evacuation of Lexington by Gen. Price, and the retreat of the main body of his army towards the South .- Ed. Bulletin 1

THE STEAMSHIP BERMUDA. - We have not received full accounts of this ship, which is reported to have entered Savannah, under British colors. She is said to be an iron-clad ship, (rather doubtful,) and was loaded with a full eargo of ammunition. We find the following items referring to her :

The British steamship Bermuda, which sailed rom Liverpool, Eng., August 15th, had evaded the blockade, and reached Savannah with arms and munitions. Private intelligence is considered concluive as to this fact. The cargo of the Barmuda consists of 18 rifle

cannon and two 168 pounds canister guns, with all the necessary shot and shell, all ready for use; 100 rilles, between 200,000 and 300,000 cartridges for the same; 6,000 pairs army shoes, 20,000 blankets, 180 bbls gunpowder, a large quantity of morphine, quinine, and other medicines, stores, and many other articles of use, worth more than money value to the PRINTS & DELAINES, in great variety. ebel army. Her cargo cost one million dollars, cash. She is now fifting out for active service, and is to be employed in cruising for returning California steamers. Commodore Tatnall is to command her. The mate of the Bermudu says that more iron had steam frigates are expected from England, for e Southern coast, by the 15th of October.

The Bermuda is owned in England; her cargo was owned in South Carolina. While she was loading, and at the time she cleared, she was supposed, in Liverpool, to be a supply ship for the Royal Navy, although Downing street [the ocation of the Foreign Office, in London] knew nuch better. She cleared for a West India port. It is said that she is to be commanded by Commolore Tatnall, (who, it will be remembered, visited Honolulu in the Powhattan, with the Japanese Embassy,) and who is now serving the Rebels, and will he sent out to cut off the California Mail Steamers.

GEORGE CLARK.

From Europe.

The following is a summary of the news sent out by the City of Washington, from Liverpool, Sepat first reported

The Times thinks the Emperor of Russia's letter good, and more appropriate and applicable to the Americans than selvice from any other power; but; obviously the advice will not be taken by a proud and obstinate people, and more blood must flow before the counsel of St. Petersburg will be listened to. Further correspondence from Dr. Itussell is published. In one letter, he says he has no doubt whatever of the ultimate power of the Northern and Western States to subjugate the Seceded States, if they put forth their strength.

. In consequence of recent events in Japan, the English vessels of war on the China station have been ordered to Yeldo. Active negotiations are going on between Paris and Turin, relative to guarantees for the spiritual

independence of the Pope. is Lord Palmerston's allusion to U. S. affairs, in his speech at the Cinque Ports banquet:

"Colonel McMurdo truly observed that recent events in America should teach us a valuable lesson. The example of what has happened across the Atlantic shows that you may collect thousands of men together and put uniforms on their backs and muskets in their hands, but you do not thereby convert them into soldiers or into an army (hear, hear); there must be discipline. Is is not enough that there should be individual bravery. Why, our cousins in America, as individual men, are as brave as any that trend the earth. They are of the same stock as ourselves; they are descended from the same parents, are animated by the same spirit, and prepared to encounter equal dangers. But when thousands of men as personally courageous as any race in existence get together, each man wanting that confidence in his comrades which discipline and training can alone supply, they exhibited to the world that unfortunate rapidity of movement which took place at Bull Run. (Laughter.) That, I say, is no disparagement to the valor of the Americans, but affords, I repeat, a lesson which we curselves may usefully pender and remember, viz : that discipline and organization are indispensable to make an army efficient in the field."

Special Motices.

ICEBURG TARGETS .- The English screw-steamer Mersey, just arrived at Halifax, experimented on an issherg with an Armstrong gun, on the voyage. A shell was fired at a small iceberg about 100 feet high, from a distance of four miles and a half. Such was the effect that a block of ice, judged to be of about 100 The Great Eastern was less damaged than was tons, fell from the summit. This large weight, falling from the top of the berg, removed the center of gravity, which caused the whole fabric to roll over and rock to and fro. It was considered a most satisfactory test of the vast range and destructiveness of these missiles.
